

GÖZEN SECURITY

Specialised **security** solutions beyond expectations

Solution Architecture
Travel Document Check for
Outbound flights from Turkey

PRE-DEPARTURE PROCESS

Airline DCS

- Airline sends reservation data (PNR or PNL/ADL) or messages for flights to SITA adress ISTFCXH
 - OR
- Airline post PNR or PNL/ADL or messages for flight to Gozen Web Service

Gozen Watchlist

- Receives PNR or PNL/ADL and check blacklist. (stolen/blanked passports etc.) Then generates pax list report for flight to be used for travel document check process in operation at airport.

DEPARTURE PROCESS

Passenger provides passport, visa and travel documents.

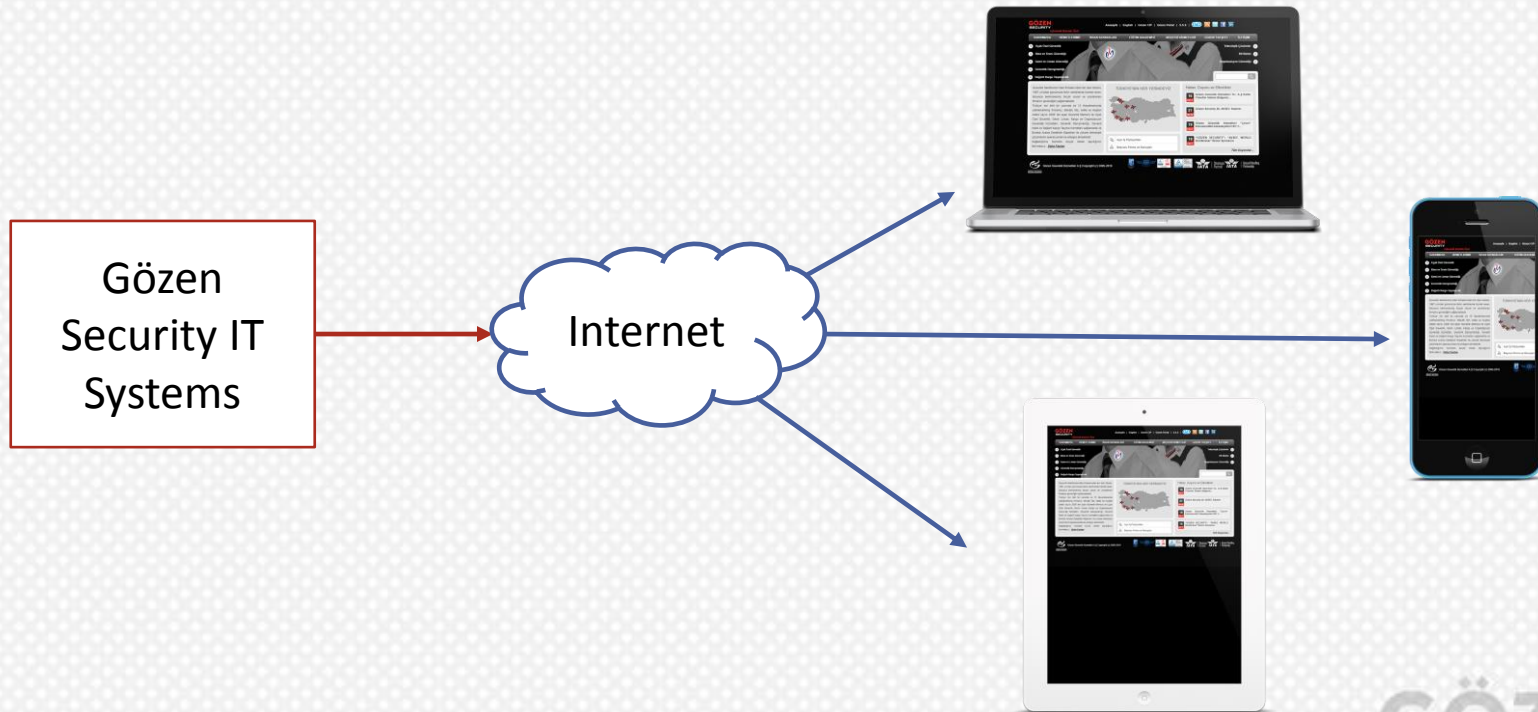

Gözen Security validates provided data through Internal and External Authorities Monitoring Systems with laptop and mobile devices.

Gözen Security complete interviewing process.

POST-DEPARTURE PROCESS

- Airline authorities access to Gözen interface to check digital passenger manifests and view scanned travel documents during interviewing process. The required permissions for the interface are granted by Gözen IT team.
- Gözen Security Systems send close-out messages to airline customer and airline authorities.

hosted by Gozen IT Department

How we process and protect personal data

GDPR

While processing personal data in this context we act in the capacity of data processor. Therefore we process personal data on behalf of a data controller and within the scope of their instructions and authorization.

GDPR

In order to ensure our customers remain compliant with GDPR, we process personal data only pursuant to documented instructions from the data controller.

GDPR

As data processor we take appropriate technical and organisational measures to ensure an adequate level of data protection and security that adheres to contractual clauses and other measures signed with our customer airlines.

KVKK

KVKK is Turkish Data Protection Law no.6698. We are committed to collecting, processing and transferring personal data in accordance with the Turkish Data Protection Law.

KVKK

The Data Protection Law is a step towards harmonizing the Turkish legislation with EU legislation, and it was prepared based on Directive 95/46/EC on data protection.

KVKK

Data subjects may find out their full rights as per the KVKK and information about our processing activities from our website.
