

## Securing your Aircraft and Cargo...

Gözen Security Services Inc. delivers customized security solutions to Airlines and Cargo Terminal Warehouse, as a third party, designed to expose security breaches, reduce theft and shipping loss, and sustain profitability.

We offer the most reliable, comprehensive and professional security support while meeting and surpassing the stringent guidelines set forth by NCASP (National Civil Aviation Security Programme), TSA, ICAO, ECAC and our clients. In order to identify threats against your assets and facility, we conduct internal audits and take corrective actions immediately.

To secure the cargo, Gözen provides Aircraft Search, Aircraft Access Control-Guarding, Cargo Security Checks, Cargo Escort, Cargo Guarding and Valuable Cargo Operations. For Cargo screening; usage of conventional X-ray, AT (Advanced technology), EDS (Explosive Detection Systems), ETD (Explosive Trace Detection) Screening or K9 Explosive Detection units are crucial.
